FROM: Frank Filas, Reclamation Engineer 

RE: Site Inspection, Silver Reef Mine, M/053/002

On March 31, 1988, Holland Shepherd and I visited the Silver Reef Mine with Jerry Glazier and Joe Epson of 5-M Inc. 5-M has initiated a clean-up of the site and has hauled several 25-ton loads of trash and metal off the site. Mr. Glazier believes that most of the requested cleanup can be accomplished before May 15, 1988.

Mr. Glazier presented us with a proposed reclamation plan for the site. This plan adequately addresses the current clean-up effort but does not mention final reclamation. 5-M will forward an Addendum D which will cover final reclamation to the Division within two weeks time.
